**Python Workshop Series**

**Department of Computer Science - OUSL**

**Activity 09**

The activity given is as follows.

---

1. Create a file called my\_notes.txt and write the following text into it

Welcome to Python Beginners course  
Python is a powerful programming language.

2. Append a new line to my\_notes.txt

I am learning how to handle files!

3. Read and print the content of my\_notes.txt
- 

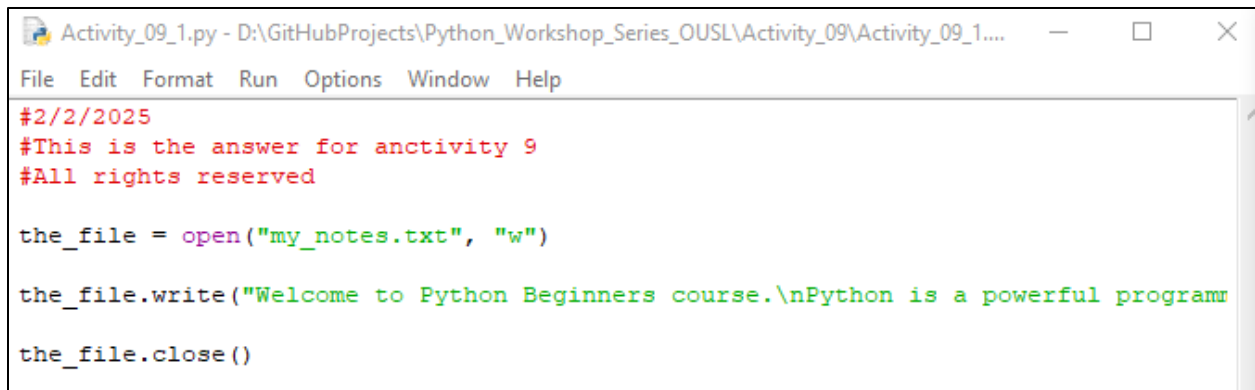

- 1.

```
#2/2/2025
#This is the answer for anctivity 9
#All rights reserved

the_file = open("my_notes.txt", "w")

the_file.write("Welcome to Python Beginners course.\nPython is a powerful programming
language.")

the_file.close()
```

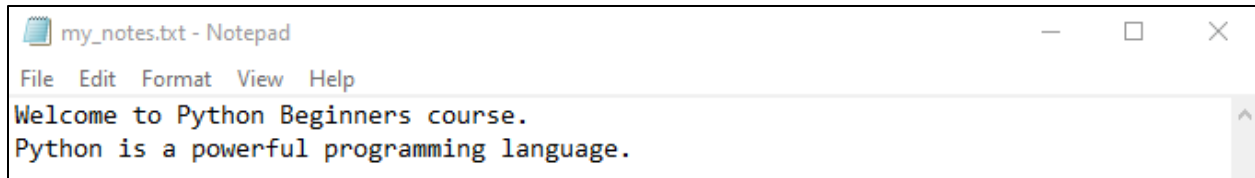

```

```
my_notes.txt - Notepad
File Edit Format View Help
Welcome to Python Beginners course.
Python is a powerful programming language.
```

2.

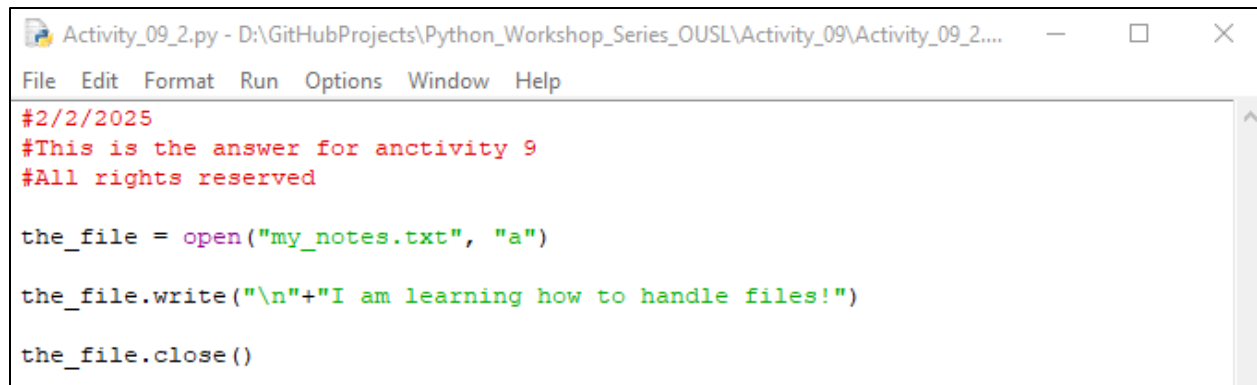

```
#2/2/2025
#This is the answer for anctivity 9
#All rights reserved

the_file = open("my_notes.txt", "a")

the_file.write("\n"+"I am learning how to handle files!")

the_file.close()
```

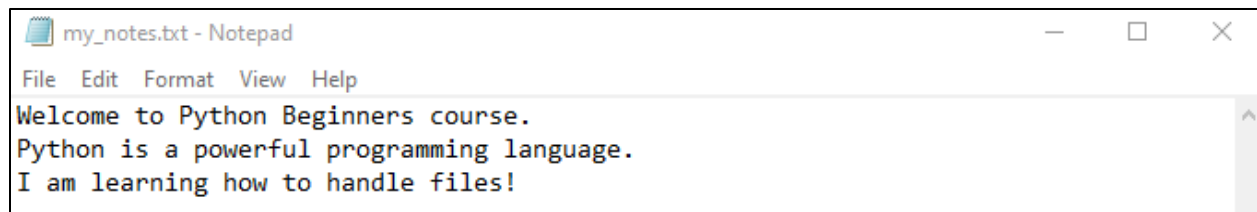

The screenshot shows a Python script editor window titled "Activity\_09\_2.py - D:\GitHubProjects\Python\_Workshop\_Series\_OUSL\Activity\_09\Activity\_09\_2....". The menu bar includes File, Edit, Format, Run, Options, Window, and Help. The code in the editor is as follows:

```
#2/2/2025
#This is the answer for anctivity 9
#All rights reserved

the_file = open("my_notes.txt", "a")

the_file.write("\n"+"I am learning how to handle files!")

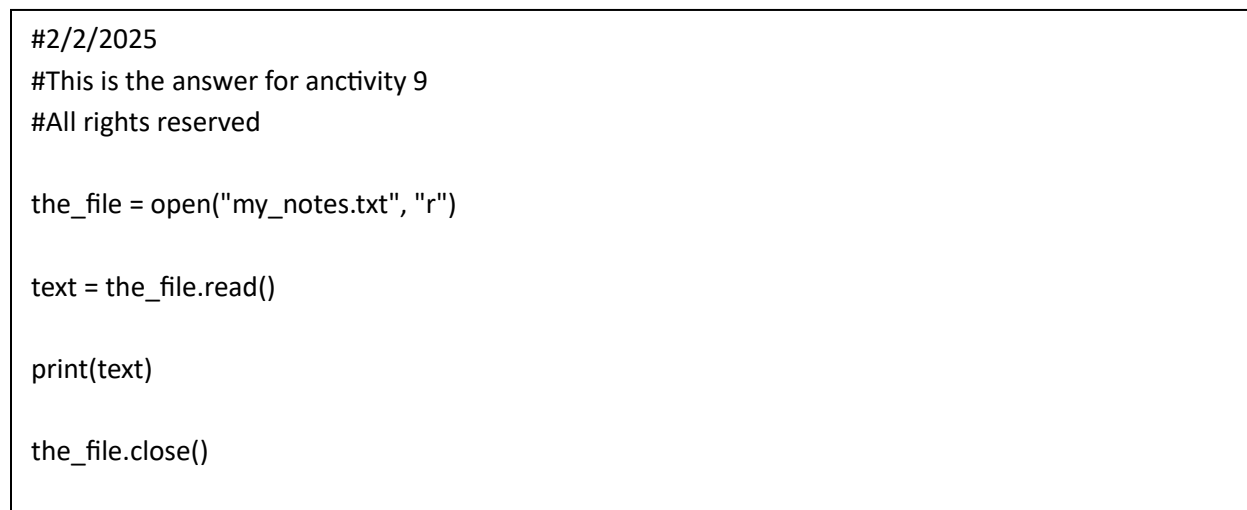

the_file.close()
```

The screenshot shows a Notepad window titled "my\_notes.txt - Notepad". The menu bar includes File, Edit, Format, View, and Help. The text in the Notepad is as follows:

```
Welcome to Python Beginners course.
Python is a powerful programming language.
I am learning how to handle files!
```

3.

The screenshot shows a Python script editor window with the following code:

```
#2/2/2025
#This is the answer for anctivity 9
#All rights reserved

the_file = open("my_notes.txt", "r")

text = the_file.read()

print(text)

the_file.close()
```

```
